

EXPANDED COVID-19 CARE OPTIONS

Three key ways to safely get care for your pet from Golden Paws

Curb-side Check-In and Limited Contact

We diagnose, discuss, and prescribe by phone

If your pet needs to be seen in our office, just give us a call when you arrive for your appointment. We will come to your car with our own slip leads, to take your pet in for their exam, test, treatment, or procedure. You don't need to spend time in our lobby or exam rooms to have an open, honest conversation with the doctor. We will call you to discuss treatment options, findings, and any needed medication or follow-up requirements.

Airvet 24-hour Telehealth App

airvet

Get answers anytime.

Use our NEW app anytime of day or night to get answers on whether a particular behavior or symptom requires urgent medical attention, even when we're closed. You can also ask questions, or request a call back from your doctor when we're open.

Download from the App Store or Google Play today.

Office Hours

We provide urgent care and ongoing treatment.

We are available Monday through Saturday, in the office as well as via phone. We want to make sure your pets get what they need, from medicine to questions answered, and from preventative treatment to surgery.

We are open:

Monday - Friday: 8 a.m. - 6 p.m.

Saturday: 9 a.m. - 4 p.m.

Follow us on social media for tips, tricks, updates, pet photos, and more.
